### OXFORD SANDY & BLACK

#### Type and Conformation

- Size:** Medium to large.
- Body:** Long and deep with broad hind quarters and rather finer fore quarters.
- Back:** Slightly arched, strong and well sprung.
- Head:** Moderately long with a slightly dished muzzle. Short or very dished face a defect.
- Ears:** Medium, semi-lop to full lop; that is, carried horizontally or lower. Erect ears are unacceptable.
- Legs:** Medium length, strong boned and well set on, giving a free and active gait.
- Colour:** Ground colour sandy. Markings black in random blotches rather than small spots, with sandy the predominant colour. Pale feet, blaze and tassel are characteristic.
