The total number of members keeping registered Welsh pigs								102

The Welsh Breed has had a good year with an increased number of sows although quite a few have yet to breed a pedigree litter. We have not lost any boar or sow lines but some remain very low but due to dedicated breeders these lines should remain safe.

The number of breeders show a steady increase partly due to the grant from the Welsh Assembly with several new incentives in the pipeline it is to be hoped we can push forward in spite of the rise in feed prices.

Christine Vaughan
