Inbreeding for the UK British Landrace Population:

2019: 0.0407, 2020: 0.0436, 2021:0.0469, 2022: 0.04330, 2023: 0.04426

British Landrace Objectives for 2024

1. Movement of sowlines within breeders
2. Reducing the Inbreeding for the whole population
3. Adding old male bloodlines back into to the Landrace herdbook

Breed Rep Report

The Landrace breed still faces a lot of problems going forward into 2024

The Number of sows remain low and it's important that as a breed we try to increase the number of breeding sows producing pedigree litters. It is important that we try to move the lines that are of priority that are in only one herd into other herds to try to prevent these lines becoming lost.
